

Make Your Own

English From the Roots Up

Notebook!

Designed by Cindy Rushton

Make Your OWN Companion Notebook for English from the Roots Up...

Welcome! We are pleased to provide for you ready-to-use pages for your Latin/Greek Notebooks. Just as many of you, we are currently studying *English from the Roots Up*. We have adapted this program to fit our own family. One of the adaptations that has made a world of difference is that we are creating our notebooks instead of making index cards with the roots and examples. We began doing this because my little girl was struggling so much to fit her writing on the back of the index cards. The notebooks give more space for her to copy her examples and definitions.

As we have developed this idea, the outcry has been tremendous for a packet, complete and ready-to-use for busy homeschooling families. I believe that you will find this resource to make homeschooling much, much EASIER!

The following are some quick tips to get your notebooks ready to go. We pray that you find this easy and fun! The Rushtons

What You Need To Begin...

All you need to make your own are using these reproducibles is a **3-ring binder** and **plastic sheet protectors**.

Begin With ONE Notebook Per Child...

Yep! It is this easy! Begin with just ONE notebook per child. You are welcome to reproduce these originals FOR YOUR OWN FAMILY. Please honor our work by not sharing with a friend without our permission. (this book is copyrighted.)

Our favorite notebooks are the 3-ring vinyl notebooks that have the clear pockets on the outside so the children can design their own covers. We usually choose the white notebooks (Either 2 or 3 inches thick notebooks.) and fill it full of plastic sheet protectors. Then, all our children have to do is label the dates on their sheets, slip the pages in a plastic sheet protector...then, add their work each day.

Simply order your pages to fit your needs. We have purposely included extra pages JUST IN CASE there is a mistake. (Yes, I am a mother too!) All of our pages are slid into plastic sheet protectors and kept in 3-ring binders in order to remain nice and neat.

Quick Tips for Making and Using Your Notebook...

1. **Use large 3-ring binders.** They are expandable...and believe it or not, you will NEED to expand in no time at all!
2. **Work as a family!** YOU make one too! You will LOVE it!
3. **Have a special spot for your children to keep their binders.** If you want your children to use their notebooks, they will need to have easy access to the notebooks and supplies. Plus, IF there is a spot to keep their notebooks, it will be easier to keep the notebook nice and neat. Ohhhh, and if there is a special spot for the notebooks, the children can rest assured that their hard work will be safe from younger siblings and pets.
4. **Have fun!**

A series of 20 horizontal black lines, evenly spaced, providing a writing area for text.

A series of horizontal lines for writing, consisting of 20 evenly spaced lines extending across the width of the page.
