# Make Your Own Recipe Notebook!

Welcome! We are pleased to provide for you ready-to-use pages for your Homemaking/Cooking Course Notebooks. Just as many of you, we are currently studying *Baking with Whole Grains*. We have adapted this program to fit our own family. One of the adaptations that has made a world of difference is that we are creating our notebooks so that we not only include recipes from the cooking course, but we also collect and include other favorites from our family. As we have developed this idea, the outcry has been tremendous for a packet, complete and ready-to-use for busy homeschooling families. I believe that you will find this resource to make homeschooling much, much EASIER!

Keep in mind that this set is different from many of the other *Make Your Own Series* sets. This set includes pages that you may reproduce and adapt to fit your own needs. Most of our sets include ready-to-use pages. This set includes only the masters, requiring that you make copies in order to create your own Recipe Notebook. We chose this format because we know that this you will want to make your recipe notebook completely individual from your page colors to pictures of YOU and your meals to stickers to a wide variety of recipe clips. You probably have many ideas of what you want already, but just in case we included some examples of our Recipe Notebooks just in case you have no idea where to begin!

There is NO wrong way to use this book...well, except if you DON'T use it at all! The RIGHT way is to have a blast using it! The best part about this book is that YOU are the author of this book. YOU are the illustrator of this book! So, have fun! Make YOUR OWN book. Oh, and share it with a friend!
